Aarohan Build & Interiors

Services Catalogue & Scope of Work

Knowledge Base Document 02 | Version 1.0 | Effective 1 November 2026

Home construction coordination

• Available for independent houses and low-rise residential projects in Jaipur region. Scope may include design coordination, civil work supervision, masonry, plastering, flooring, painting and finishing.

• Structural design, soil testing, government fees and architect/engineer statutory certification are separately scoped unless specifically listed in the signed contract.

Apartment renovation

• Bathroom renovation, kitchen upgrades, flooring replacement, painting, electrical rewiring, plumbing replacement, storage and selected civil modifications.

• Typical exclusions: society permissions, major structural changes, concealed damage discovered after demolition, appliance purchases and temporary accommodation.

Services Catalogue & Scope of Work — continued

Interior services

• Modular kitchens: layout planning, cabinets, shutters, hardware, countertop coordination and installation.

• Wardrobes: hinged or sliding shutters, internal shelves, drawers and selected accessories.

• False ceilings: gypsum-board ceilings, access panels, cove details and lighting cut-outs. Electrical fixtures are priced separately unless included.

Turnkey interiors

• Design coordination, procurement, installation and handover under one project plan. Final inclusions are defined by the approved BOQ (Bill of Quantities).

• Customers receive a room-wise scope sheet and material schedule before procurement.
