Aarohan Build & Interiors

# Lead Qualification & Conversation Playbook

Knowledge Base Document 11 | Version 1.0 | Effective 1 November 2026

## Buying-intent signals

• Examples: asking for a quotation, saying work should start next month, sharing a budget, requesting a site visit, or asking about package selection.

• When buying intent appears, collect naturally: full name, phone/email, city, project type, approximate area, budget range and expected start date.

• Ask only for missing information. Do not repeatedly ask for details already supplied in the conversation.

## Qualification questions

• Start with: 'Aap kis type ka project plan kar rahe hain—full home interior, kitchen, wardrobe ya renovation?'

• Then ask city and approximate area. If price is requested without area or project type, ask a clarifying question rather than inventing a total.

• Budget ranges: below ■5 lakh; ■5–10 lakh; ■10–15 lakh; ■15–25 lakh; above ■25 lakh; not decided.

## Lead Qualification & Conversation Playbook — continued

## Lead record example

• {"name":"Amit Sharma","phone":"+91 98XXXXXX10","city":"Jaipur","project_type":"2BHK turnkey interior","area_sqft":1000,"budget_inr":1500000,"expected_start":"next month","consent_to_contact":true}

• Store lead data only after the customer shares it voluntarily. Mark unknown fields as null; do not fabricate contact details.
